Shubham Gaur

Email : shubham_gaur@hotmail.com
Mob : +91-7415355517

Address:

National Institute of Technology
GE Road, Amanaka Sq.
Raipur City, Raipur (C.G.)
Pin: 492010

Education:

❖ National Institute of Technology — *June 2019*
National Institute of Technology, Raipur (NIT Raipur)
Masters in Information Technology
Project : Secure Information Aggregation for Smart Grid
CGPA : **7.75** (2nd Sem)

❖ Rajiv Gandhi Technical University, Bhopal (M.P) — *June 2017*
Chameli Devi School of Engineering, Indore (CDSE, Indore)
Bachelors in Computer Science and Engineering
Major : Intelligent Attendance Management System
CGPA : **7.95** (out of 10)

❖ Madhya Pradesh Board of Secondary Education (MPBSE) — *June 2013*
Govt. Excellence H. Sec. School
12th Standard
Percent : **85.2**%

❖ Central Board of Secondary Education (CBSE) — *June 2011*
St. Pius School
10th Standard
CGPA : **8.8**

Training:

- Organization: National Institute of Technology — *Aug 2018*
  - ❖ Deep Learning: TensorFlow
  - ❖ Apache Spark: Pyspark, ML, Pipeline
  - ❖ Realization of research paper "Secure Information Aggregation for Smart Grids using Homomorphic Encryption" by Fengjun Li, Bo Luo, Peng Liu with the help of Paillier Encryption and Python 2.7.
  - ❖ Omnet++, Matlab
- Organization: Zensar Techologies — *Dec 2016*
  - ❖ Trained in java core and advance.
  - ❖ Trained in SQL/PLSQL.
- Organization: Open Courses — *June 2016*
  - ❖ Certification in Core Java

Areas of Interest:

- Information Security
- Machine Learning
- Data Analysis
- AI
- NLP
- Pattern Recognition

Technical Skills:

- Beginner
  - MATLAB
  - OMNET++
  - Tensorflow
  - Apache Spark
    - PySpark
    - ML
    - Pipelines
- Intermediate
  - C/C++
  - Python 2.7
  - Java Core
  - SQL/PLSQL
  - HTML/CSS

Hobbies:

- Sketching
- Reading Sci-Fi
- Comics

Projects:

- Activity Recognition using Tensorflow *Nov 2018*
  Determining human activity using positional coordinates.
  Classification using RELU and Softmax with an accuracy of 85%.
  - Tools : Tensorflow, Python 2.7
  - Dataset : WISDM, Kaggle-UCI
- Human Activity Recognition using Apache Spark and ML *Aug 2018*
  Determining human activity using positional coordinates.
  Classifiers such as Logistic Regression, Decision Tree and Random Forest were used. Logistic regression was further tuned with cross fold giving an accuracy of 74%.
  - Tools : Apache Spark- PySpark, ML pipelines
  - Dataset : WISDM, Kaggle-UCI
- Secure Information Aggregation for " Smart Grid " *Dec 2017*
  Developed a virtual Smart Grid System using tree structure and applied Homomorphic Encryption using Paillier Encryption to avoid intrusion with data on communication channels and thus enhancing security.
  - Tools : Python 2.7, CSV
- Intelligent Attendance Management System *Jan 2017*
  Application software developed to automate the process of attendance marking system using face recognition.
  - Tools : Python2.7, Open CV 3.0, MySQL
- Home Cloud *Nov 2016*
  Web application created to simplify sharing of data on local area network.
  - Tools : Java, Oracle SQL
  - Server : Apache Tomcat
- Billing Application *Oct 2016*
  Application developed to simplify the process of bill generation with variable tax inclusion.
  - Tools : Java

Achievements:

- Cleared Gate 2017 *Mar 2017*
  - Percentile : 93.98
- Rio+21 IYWC India Certificate Program *Oct 2014*
  - Grade Awarded : 'B'

Personals:

- Permanent Residence : 64, Baroda Road, Sheopur (M.P)
- DOB : 22nd July, 1995
- Languages : English, Hindi
